

hidden televisions and smart mirrors

AN ENVELOPE FOR TECHNOLOGY
IN THE MODERN HOME

Our company is committed to providing the Highest level of service and Highest quality of products available.

HiFrame is a unique product developed in Italy for the luxury yacht industry; that we now bring to you.

It incorporates your current or future TV within an elegant piece of furniture which is faced with a special elegant mirror. It allows the screen to appear at your command or disappear behind the mirror.

We take pride in bringing you the finest materials and workmanship.

We offer a great number of frames in wood and stainless steel. Some of our frames are also pholstered with a variety of materials, including fine Italian leathers

BATHROOM MIRROR SERIES

Alexa Smart Mirror

Alexa Hiframe – A cloud based voice service to play music, make calls, set timers, and music alarms, ask questions, check traffic and weather, and more—instantly.

Just ask for a song, artist, or genre from Youtube, Spotify, Pandora and more.

With multiroom music, you can play music on your Hiframe mirror. It can also play Audible audiobooks, radio stations, news briefs and more.

Hiframe hears you from any direction—even while music is playing.

Alexa is always getting smarter and adding new features and skills. Just ask Alexa to control your TV, request a Taxi, order a pizza and more.

Smart LED Hiframe Mirror

White Glass 32" TV

Inferiore Series

Smart LED Mirror

Hiframe LED Lighted Mirror features a polished edge mirror that hangs on the wall. A frosted 1.5" wide stripe on each side lets bright LED light through the glass.

Easy hanging system uses an invisible trim providing a sturdy waterproof final product.

Certified for commercial as well as residential applications.

INNOVATIVE SCREEN DESIGN SYSTEM

"DRESS" YOUR TV SCREEN
WITH HI FRAME

Hiframe escalates your TV session into a higher level. Visible only upon your desire, the TV disappears when turned off and fully blends into your décor. Hiframe product line can be combined with various design styles.

EXTREMELY ADAPTABLE TO ANY APPLICATION AND ALL DESIGN OBJECTIVES.

This innovated design can be used internally and externally due to its sophisticated technology, and can withstand any weather condition.

Developed in ITALY, this product combines the multimedia technologies with the original design and elegant style.

The product can be used both with your old or new TV screen. The technology allows installation of the screen behind two kind of Glass and surfaces:

Our unique Mirabello mirror, which is exclusive to Hiframe, has a wide range of colorful glass that was designed especially for this technology. The products are extremely adaptable to any applications and all design objectives.

MAIN ADVANTAGES:

- ▶ Waterproof
- ▶ Flexibility in monitor and TV models
- ▶ Adjustable in size preference
- ▶ Glass or Mirror variety of surfaces
- ▶ Easy mounting
- ▶ Finest material
- ▶ High end furniture
- ▶ Monitor system offers complete invisibility when turned off
- ▶ No visible cables
- ▶ This innovative and modern monitor system has countless applications, including in wet areas. All Hi Frame monitor systems are exclusively designed to overcome humidity challenges. HiFrame offers stylish product that will incorporate your TV screen behind a unique mirror.

THE COMPANY

Hi Frame offers you a way to stand out in the most elegant and sophisticated way.

Hi Frame is a brand recognized worldwide with a reputation for a reliable supplier of innovative products of unparalleled quality.

The privately owned factory allows Hi Frame to manufacture high quality and innovative products at a competitive price not only locally but globally through a wide network of distribution channels.

Currently Hi Frame distributes its products in USA, Europe and Israel.

SUCCESS STORIES

A well known restaurant "Ribs" in Ashdod, Israel that underwent a massive renovation and wanted to create a VIP room for the customers of the restaurant, we decided to give a warm atmosphere with integrated screen and electronic fireplace working on water that gives a sense of real flames.

We were asked by the designer to turn the video wall into something interesting and fascinating that will allow the event attendees to watch large and special screens.
